

## CAROL CARTER WORKSHOP

Learn how to paint with fluidity in watercolor.

Carter will demonstrate her technique of wet, loose watercolor through demonstration.

Each day begins with a uniquely tailored lesson to inspire. She will discuss color, water, design, and value.

The brilliance of color and the purity of paint application will be emphasized. She will talk about juxtaposing colors to make them vibrate.

Imagery, content, and point-of-view are a focus.

The afternoon will be devoted to individual instruction and group critique.

Classes are informal and discussions are lively and entertaining.

She will talk about marketing and using social media to build your career.

Questions, curiosity and camaraderie are a must!

Carter strives to build an atmosphere of **learning** by support, encouragement, permission to take a risk, and answering all questions.
